### Death & the Fool

What do they mean together?

The Death card - please don't be afraid of this card, it doesn't mean a physical death instead it means a significant transformation to a person's life, the end of one chapter and the beginning of a new one. If this card appears in a reading, it is advising you that it is time to let go of the old and embrace the new.

See this card as a wakeup call to make necessary changes in your life of circumstance that will bring in a new chapter.

The Fool meaning: this is a bright positive card shown by the card being almost all in yellow, representing a new beginning & a fresh start.

Focusing solely on the journey ahead of you a risk may be required. You are at the start of a new chapter & adventure – be excited to take the chance, trust yourself & travel lightly.

### In conclusion

These two Major Arcana cards together represent a very powerful combination, indicates an ending, a transition & a new beginning is on the horizon.

This new journey will require you to leave the old habits, beliefs & patterns of behaviour behind. This could be uncomfortable for you or even quite difficult, but must be complete in order to adopt the Fool's position, to venture out of your comfort zone & embrace the future with excitement, with the Death card reminding you that things must end in order for the new things to enter our life.
